

Group Mortgage Program with David Benson at Mortgage Intelligence

GPC has teamed up with David Benson at Mortgage Intelligence to offer its members access to a new and exciting Group Mortgage Program. A Mortgage Broker understands your mortgage needs, seeks out the best options for your situation, and guides you through the lending process. A mortgage broker does not work for any individual institution or lender, but is independent, and has up-to-the-minute loan rates for a wide array of banks and other lending institutions.

This is a tax free, no cost, no obligation benefit program that is available to you. Through this program you will have access to exclusive products, rewards and discounted interest rates. David Benson has helped people obtain funds for home purchases, renewals, recreational properties, home renovations and debt consolidation.

Mortgage Intelligence is one of the largest mortgage brokerage firms in Canada. They can offer financing solutions from dozens of different sources including Canada's largest banks, mortgage companies, credit unions and more. Even people with special credit or financing needs are almost certain to find a solution through Mortgage Intelligence.

I would encourage you to consider this program; it costs nothing, but can make a world-of-difference if you are unaware of the services provided by a mortgage broker. Additional information on the Group Program can be found by clicking [here](#) or by visiting <http://www.mortgageexpertise.ca>.
